

Circular: Curve extension for Spark25FFA and Spark30FFA

Date: 16th January 2022

This circular is to give notice for the extension of the Spark25FFA and Spark30FFA forward curves scheduled for 1st February 2023.

Current SparkFFA forward curve:

- Monthly: Current Month to Dec23
- Yearly: Cal24

Extended SparkFFA forward curves from 1st February:

- Monthly: Current Month to Dec24
- Yearly: Cal25

As a reminder, all SparkFFA prices from January 2024 onwards will settle against the Spark spot LNG Freight rates with Vessel Type '174,000 m³ 2 Stroke with no onboard liquefaction capabilities' and Boil Off Rate to '0.085% of cargo tanks at 98.5% capacity for 174,000 m³ 2 Strokes' following the recent [Vessel Type and Boil Off Market Consultation](#).
